

1st Virtual OIFE Investigator Meeting
18 November 2022 14:00-19:00 CET

Goals:

To facilitate collaboration in OI across Europe

Bring clinicians and researchers together/collaborative research

Give researchers a voice

Support development of consortia

14:00	Welcome and introduction Oliver Semler (Germany)
Clinical	
14:05	Setting the scene: Where are we now with clinical research? Nick Bishop (UK)
14:20	Losartan/Remedi4all Nick Bishop (UK)
14:25	IMPACT survey Frank Rauch (Canada)
14:35	Eurr BONE Natasha Appelman-Dijkstra (Netherlands)
14:45	Danish epidemiological research Lars Folkestad (Denmark)
14:55	RUDY Kassim Javaid (UK)
15:05	Remodelling an existing rare disease registry to be used in a regulatory context Luca Sangiorigi (Italy)
15:15	TOPAZ Stuart Ralston (UK)
15:20	BOOSTB4 Cecilia Götherström (Sweden)
15:30	<i>Break</i>
Basic	
15:45	Setting the scene: Where are we now with basic science Antonella Forlino (Italy)
16:00	A translational approach towards personalized medicine for osteogenesis imperfecta Cecilia Giunta (Switzerland)
16:10	Therapeutic challenges in OI Dimitra Micha (Netherlands)
16:20	Precision medicine in OI Ivan Durán (Spain)
16:30	From genomics to zebrafish and back Paul Coucke (Belgium)
16:40	<i>Break</i>

16:55	The Cologne pipeline for analyzing extracellular matrix in OI Frank Zauke (Germany)
17:05	<i>Topic tbc</i> Valérie Cormier-Daire (France)
17:15	Atypical OI Meena Balasubramanian (UK)
17:25	Micro RNA expression in OI Alexandre Mercier (France)
17:35	Bone quality in physiological and pathological conditions Björn Busse (Germany)
17:45	Bone materials Peter Fratzl (Austria)
17:55	<i>Break</i>
From collaboration to consortia	
18:10	Brendan Lee (USA) How to manage bench to bedside: experiences and insights from the BBDC
18:25	Discussion on how to facilitate collaborative research Facilitators: Ingunn Westerheim/Lars Folkestad Panel
18:55	Summing up and next steps
19:00	<i>Close</i>
